Color Swatches

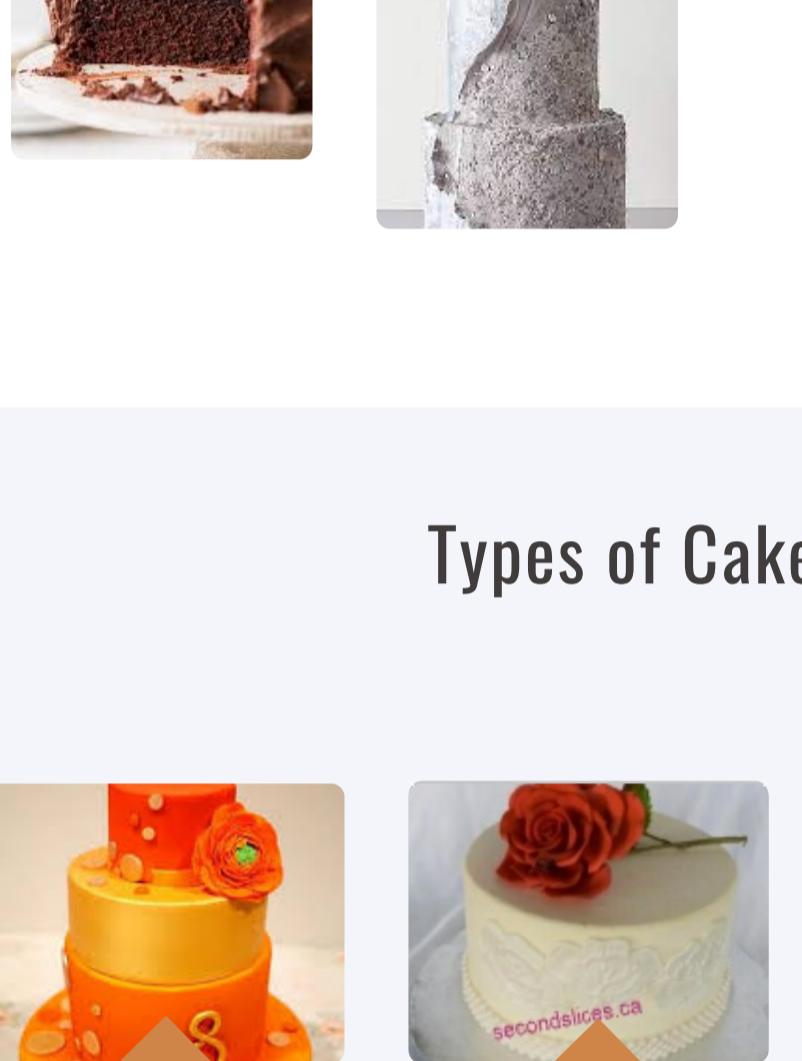

Rational

First of all i choose this colors because this is a bakery website and light theme with dark elements will go absolutely well and people will love the colors in this website. second of all, the font families really looks made for each other and the last thing which will become charm of my redesigned website is patterns. i choose simple looking and saturated color patterns. They absolutely going to blend with the theme.

Note:- I design this mood board personally and that's why i am not putting inspiration website pictures

Reviews

I ordered a birthday cake for my twins and it was amazing. The cake impressed everyone as it was whimsical and very visually appealing. The best part was that it tasted as good as it looked. As a baker myself, I know quality and freshness and this cake had both. I would highly recommend ordering from Second Slices you will not be disappointed.

Quality: Excellent

Appeal: Excellent

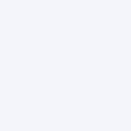

Service: Excellent

I am very fortunate to have found second slices, every birthday I have had Rosemarie and Jeff make our cakes from my husbands cake to my daughters and my own. Not only are the cake delicious but the detail on the cakes is out of this world, the cake princess cake they made for my daughters 3rd birthday brought her princess themed.
